

March 25, 1974

SENATOR DECAMP: Is there any money appropriated or planned to build a new center..a new Regional Center as this time.

SENATOR MARVEL: No, Sir. No, Sir.

SENATOR DECAMP: So, if this building were lost, we are at least talking about at this point a mythical center is this right?

SENATOR MARVEL: Well, I'm giving you my personal opinion, and that's what you asked for..

SENATOR DECAMP: That is correct. Because I can't seem to get answers anywhere else.

SENATOR MARVEL: And my personal opinion is that would be the beginning of the end. Yes, Sir.

PRESIDENT: Senator Kennedy. The only reason I'm calling on Senator Kennedy he's a little bit out of line here, but he seemed to have something to say in answer to Senator DeCamp's question. Senator Kennedy.

SENATOR KENNEDY: I guess, Mr. President, and fellow members. If I'm out of line, I want to be told I'm out of line, but it is my question. I do represent that district. And originally it was my intent not to discuss 1051 too much. But I guess we probably lost the ball game to a certain degree already, with 1051. We a..have a lot of bills up there that we have good intent, and this might help us get state funds, and I said it the other day. But the administration building in the Regional Center should be used for both the mental health as an adminstration building and a kitchen
